Top 10 Highest Guideline in Coimbatore Guideline Value Details for Major SRO in Coimbatore Health Plan from rs.19/Day\* Apply Online Demat Account Lineline Value of a country is the estimated market value of a country according to government data. Under ideal conditions, the benchmark should really reflect market value. In most cases, however, the guide value is lower than the market value; may also be higher than the market value. The government has set benchmarks for all areas of the state. Well-established residential areas have road-based benchmarks. For properties that are not shaped into roads, the guide value is set based on the property's survey number. The benchmark value of a property plays an important role in the decision to buy a property and then register it. The guideline helps the registrant to identify undervaluations of real estate to avoid registration fees. However, where the guideline is unreasonably above the market value, such cases may be brought to the attention of the district registrar concerned, deputy inspector general for registration and inspector general of registrations to correct the anomaly. Finding Property Guideline ValueTo find the benchmark for a property, visit the Tamilnadu Registration Department website. Tamilnadu Guideline Value SiteOn the left side of the window, select the zone that requires a guideline and select the search for street names on the right. Search Guide ValueNow enter the street name or part of the street name and click Search to change the policy value of a in the next screen. Guideline Value Search ResultsBased on Search Search Information on the benchmark including street name, village name, sub-registration office, benchmark and property classification is provided. The same website can also be used to find the benchmark by category, with the guideline for land categories such as trade, housing, industry and agriculture with additional classifications based on the sub-registration office and the village.
